HAL Systems
HAL Traxx™ Inventory - Basic

Advanced Technology to Advance Your Business

Do you have basic inventory control needs that don't require a complicated, sophisticated solution? But on the other hand your needs may grow in the future and you don't want to have to change platforms as your business grows? Then the HAL Traxx-™ Basic solution is the perfect starting point to get you automated. HAL Traxx™ Inventory - Basic can help you reach your business goals - today and tomorrow - with a high-value, low-cost inventory management solution.

You don't have to be a big company with a big budget to have the most advanced technology for inventory management from HAL Systems. HAL Traxx™ Inventory - Basic makes it easy and affordable for you to manage receiving, internal material movements and packing/shipping transfers.

HAL
SYSTEMS INC.

HAL Traxx™ Inventory - Basic Advantages Include:

- One System Administrator and up to five concurrent users

- User-modified glossary of terms including an alternative language option

- Cycle-counting function to insure inventory accuracy

- Image-enabled for accurate product recognition

- Convenient reports including complete transaction history

Is Your "Warehouse" on Wheels?

HAL Traxx™ Inventory - Basic can be used on mobile devices to easily monitor material movements between fixed (multiple, small satellite warehouses) and mobile locations (service vehicles, trucks).

Flexibility for Proven Success in Multiple Industries

- Parts distribution
- Order fulfillment
- Bakery and food production
- Chemical mixing applications

TRADITIONAL WAREHOUSE MATERIAL FLOW

RECEIVING — STORAGE — PRODUCTION — STORAGE — PICK — SHIP

HAL Traxx™ Inventory - Basic is a standalone system and is available as a hosted (cloud-based) solution for a monthly fee. It is upgradeable with additional capabilities and is scalable to the fully-featured HAL Traxx™ Inventory solution.

Connect with HAL Systems Today
