HAL Traxx™ Inventory

Advanced Technology to Advance Your Business

What's your top priority today? Perhaps you want to boost employee productivity, reduce labor and training costs, and avoid any unplanned stock-outs in your warehouse. Or you need end-to-end product traceability to minimize post-shipment disruption. Do you need to ensure quality and quarantine controls in your business as well as compliance? HAL Systems can help you reach your business goals – today and tomorrow – with a high-value, low-cost inventory management solution.

You don't have to be a big company with a big budget to have the most advanced technology for inventory management – HAL Traxx™ Inventory from HAL Systems. HAL Traxx™ Inventory makes it easy and affordable for you manage receiving, internal material movements, manufacturing, and shipping transactions.

HAL Traxx™ Inventory Advantages Include:

- **Configurable elements** that can be selected, customized and modified by the user, and changed as business requirements change, without relying on programming changes:
 - Glossary of terms (four languages included)
 - Workflows
 - Business Rules
 - Authorizations
 - Locations and codes
- **Dynamic bin** allocation for optimal facility utilization
- Tracking of **production** and **batch/lot control** ensures end-to-end product traceability
- **Quality control** and **quarantine** functions for critical processes
- **Directed picks** (including voice) for maximum labor efficiency
- **EDI transactions** enable you to meet specific customer requirements
- **Image-enabled** for accurate product recognition

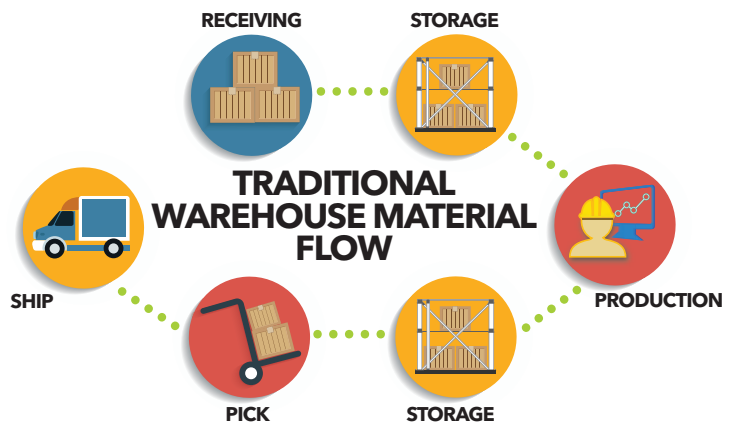

Is Your “Warehouse” on Wheels?

HAL Traxx™ Inventory can be configured with a Traxx™ Mobile capability to easily monitor material movements between fixed and mobile locations (service vehicles, trucks) and can be interfaced with other systems for fast and accurate invoicing.

Flexibility for Proven Success in Multiple Industries

- Parts distribution
- Bakery and food production
- Chemical mixing applications
- Make-to-order and serialized products
- Order fulfillment
- Mobile service industries (HVAC, electrical, plumbing, etc.)

Need an innovative solution to interface with your legacy system? No problem. At HAL Systems, we specialize in meeting challenges that other companies might consider too difficult, small or unusual. We'll work closely with your resources to meet your requirements and exceed your expectations.
